---

I am a Planetary Scientist specialized in remote sensing data analysis and numerical modelling to study geologic processes on terrestrial bodies in the solar system, with a particular focus on the polar regions of Mars. I am currently studying the recent geologic and climatic history of Mars as it is expressed in the layered deposits found in its polar caps. I am interested in research that broadly relates to the study of planetary surface processes through the coupling of analysis of spacecraft data with quantitative modelling.

## EDUCATION

### 2016 Ph.D. Planetary Sciences (Minor in Geosciences)

The University of Arizona

Dissertation: *"The Poles of Mars, Past and Present: A high-resolution observational study of the Martian Polar Regions and their connection to climate"*

### 2015 M.S. Planetary Sciences

The University of Arizona

### 2013 Graduate Certificate in Engineering Management

The University of Arizona

### 2007 B.S. Physics

Pontificia Universidad Católica del Perú

## FELLOWSHIPS AND AWARDS

2017 EOS Research Spotlight Article

2014 Sigma Xi International Research Conference Superior Student Presentation Award

University of Arizona College of Science Galileo Circle Scholar

Lunar and Planetary Institute Career Development Award

2013 NASA Earth and Space Science Fellowship

2012 Lunar and Planetary Laboratory Graduate Teaching Excellence Award

## RESEARCH EXPERIENCE

### Physikalisches Institut, Universität Bern

#### February 2017 - Present

*Postdoctoral Researcher in Space Research and Planetary Sciences*

Advisor: Prof. Dr. Nicolas Thomas, Director. PI of CaSSIS on ESA's Mars Trace Gas Orbiter and Co-I of OSIRIS on ESA's Rosetta.

- Remote sensing studies of the stratigraphy and paleoclimatology of the Martian polar regions and other ice deposits
- Laboratory-based microwave studies of planetary analog materials

### Department of Planetary Sciences, The University of Arizona

#### August 2016 – January 2017

*Research Specialist*

Advisor: Dr. Shane Byrne, Associate Professor of Planetary Sciences. Co-Investigator (HiRISE)

- Periodicity analysis of the surface texture of the North Polar Residual Cap of Mars

**Department of Planetary Sciences, The University of Arizona**

**August 2009 – July 2016**

*Research Assistant (2009 – 2011), Research Associate (2011 – 2016), NASA Earth and Space Science Fellow (2013 – 2016)*

Advisor: Dr. Shane Byrne, Associate Professor of Planetary Sciences. Co-Investigator (HiRISE)

- Observations, image processing, and surface reflectance modelling of transient features on the south polar residual cap of Mars. Funded by Dr. Byrne's NASA Mars Data Analysis Program grant number NNX09AM01G.
- Quantitative analysis of Mars polar stratigraphy using high-resolution topographic data, spectral analysis tools (FFT and Wavelet analysis), and signal-matching algorithms (Dynamic Time Warping). Funded by NASA Earth and Space Science Fellowship award number NNX13AO55H.

**National Commission for Aerospace Research and Development (CONIDA) – Peruvian Space Agency**

**March 2007 – May 2009**

*Research Assistant: Astronomy Department*

- Photometric analysis of Saturn's F-ring from Cassini's Imaging Science Subsystem (ISS). International collaboration project. Advisor: Dr. Mark Showalter. First CONIDA investigator to do research in planetary science.
- Created a Planetary Astronomy research group within CONIDA.
- Organized the First Short Course on Planetology in October 2008.
- Observations and data reduction to evaluate sky conditions for the construction of a future National Astronomical Observatory in Moquegua, Peru. Established a working relationship with surrounding agricultural communities, contributing to their education and development.

**Gemini Observatory** (Gemini South, La Serena, Chile)

**August 2007**

*Trainee: Observational Astronomy (08/07)*

Advisor: Dr. Percy Gómez

- Image processing and photometry of star clusters

**PLANETARY EXPLORATION MISSION EXPERIENCE**

**2019 NASA Discovery Mission Proposal: Climate Orbiter for Mars Polar Atmospheric and Subsurface Science (COMPASS)**

**September 2018 – Present**

*Co-Investigator: Dual-Mode Radar (Sounder and SAR) Instrument*

**Colour and Stereo Surface Imaging System (CaSSIS) - ESA ExoMars Trace Gas Orbiter**

**February 2017 – Present**

*Science Theme Deputy Lead: Ice and Periglacial Processes*

- Management of observation campaigns, target prioritization, review of acquired images
- Image analysis for scientific objectives

*CaSSIS Targeting Lead (CaTL)*

- Selection of scientifically relevant targets for observation
- Planning of observations
- Image compression testing

**High Resolution Imaging Science Experiment (HiRISE) - NASA Mars Reconnaissance Orbiter (MRO)**

**July 2016 – Present**

*Science Theme Lead: Climate Change*

- Management of observation campaigns, target prioritization, review of acquired images

### **August 2010 – 2016**

*Junior Science Team Member*

- Image analysis for scientific objectives
- Experience with Digital Terrain Model (DTM) production

### **NASA Planetary Science Summer School**

#### **August 2014**

Session III. Mission: Argus - Io Observer

*Risk and Programmatics Chair*

- Analyzed risk and designed mitigation strategies for the mission proposal. Designed schedule and milestone program for the mission.

*Principal Investigator for the Io GLobal Optical Observer (IGLOO) instrument*

- Led the IGLOO (multiband imager) instrument team, decided on instrument-specific science objectives and conceived the instrument design.

## **TEACHING EXPERIENCE**

### **Department of Physics, Universität Bern**

#### **Fall 2018**

*Teaching Assistant* in Laborkurs Moderne Physik II

Instructor: Prof. Ingo Leya

- In charge of “Light Scattering” goniometer experiment

#### **Spring 2018**

*Teaching Assistant* in Physik Praktikum Studierende Biologie

Instructors: Prof. Dr. Michele Weber, Prof. Dr. Saverio Braccini

#### **Fall 2017**

*Teaching Assistant* in Laborkurs Moderne Physik I

Instructor: Prof. Ingo Leya

- In charge of “Light Scattering” goniometer experiment

### **Department of Planetary Sciences. The University of Arizona**

#### **Fall 2012**

*Teaching Assistant* in PTYS 214: “Astrobiology: A Planetary Perspective”.

Instructor: Dr. Ilaria Pascucci

#### **Spring 2012**

*Teaching Assistant* in PTYS 170B1: “The Universe and Humanity: Origin and Destiny”.

Instructor: Dr. Tamara Rogers

- Lunar and Planetary Laboratory Graduate Teaching Excellence Award

## **ADVISING AND MENTORING**

**2018** Maryse Napoleoni (Masters student from the University of Paris. Summer intern at the University of Bern for CaSSIS).

**2017 – 2018** Sergio Parra (Undergraduate student at Georgia Institute of Technology. Co-advising during and after his Research Experience for Undergraduates at NASA Jet Propulsion Laboratory. Principal advisor: Dr. Sarah M. Milkovich)

**2005 – 2007** Vocational orientation to high school students through the Office of Relations with Educational Institutions of the Pontificia Universidad Católica del Perú.

**2018** NASA Mars Data Analysis Program: External Reviewer  
**2017** NASA Cassini Data Analysis Program: External Reviewer  
**2017** NASA Mars Data Analysis Program: External Reviewer  
**2016** NASA Planetary Instrument Concepts for the Advancement of Solar System Observations (PICASSO): Executive Secretary

### Involvement in Conferences and Workshops

- 2020** 7<sup>th</sup> International Conference on Mars Polar Science and Exploration: Organizer and Convener (to be held at the Centro Austral de Investigaciones Científicas, Ushuaia, Argentina)
- 2018** European Planetary Science Congress: Co-convener for session “Mars Science through ExoMars TGO and Rover Observations”
- 2017** Keck Institute for Space Science Workshop “Unlocking the Climate Record Stored within Mars' Polar Layered Deposits I and II”: Invited lecturer and workshop participant
- 2017** Lunar and Planetary Science Conference: GSA Dwornik Award Judge
- 2016** 6<sup>th</sup> International Conference on Mars Polar Science and Exploration: Session chair
- 2016** Lunar and Planetary Science Conference: Session chair
- 2010 – 2012** Lunar and Planetary Laboratory Conference: Co-organizer
- 2008** First Short Course on Planetology in CONIDA, Lima, Peru. Lead Organizer and Convener

## LABORATORY EXPERIENCE

### EpsiMu Coaxial Microwave Tool for the Measurement of Dielectric Properties

- Microwave vector network analyzer that measures the dielectric properties (permittivity and permeability) of wet and granular samples (Sabouroux and Ba, 2011, Progress In Electromagnetics Research B, Vol. 29, 191{207)
- Received training at the University of Bern by the instrument designers and manufacturers

### University of Bern PHIRE1 Gonoradiometer

- Measures the reflectance of solid, granular, and wet samples
- Received training in order to teach undergraduate and masters students to use the instrument to learn about optics and remote sensing

## **FIELD EXPERIENCE**

### **Volcanoes National Park, Hawai'i**

**Spring 2014**

*Student Researcher*

- Field activity: Roughness measurements of lava flows from Kilauea and Mauna Ulu

### **Southern Nevada**

**Spring 2012**

*Student Researcher*

- Research Objective: Understand formation of vegetation bands in dry lands
- Field activities: Terrestrial Laser Scanning, soil shear strength and infiltration rate

### **Various locations throughout the Southwestern United States**

**Fall 2009 – Spring 2014**

*Student*

- Educational field trips as part of a Planetary Geology Field Practicum class
- Focus on comparing terrestrial geology to landforms on other planetary surfaces

## **OUTREACH AND COMMUNITY SERVICE**

- Astronomy on Tap – Bern: “Listening to Mars’ Polar Climate Record”
- Management of CaSSIS social media accounts (Instagram, Twitter, Facebook)
- Interview in Radio Capital in Lima, Peru to promote the study of planetary science within the Peruvian student community. M. Delta
- Outreach [Interview](#) for Punto edu (Pontificia Universidad Católica del Perú). D. Grimaldo
- Public Outreach Presentation for the Students for the Exploration of Space (SEDS) University of Arizona Chapter
- Outreach presentations on planetary science in Tucson, AZ, USA and Lima, Peru
- Lunar and Planetary Laboratory Mission Seminar Series Organizer. 2014, 2015

## **PROFESSIONAL MEMBERSHIPS**

- Sigma Xi Scientific Research Society
- American Astronomical Society, Division of Planetary Sciences
- American Geophysical Union
- The Planetary Society

## **COMPUTER SKILLS AND TRAINING**

- Programming:
  - Interactive Data Language (IDL) – Intermediate/Advanced level
  - Matlab – Basic level
  - C – Basic level
- ESRI ArcGIS
- Java Mission-planning and Analysis for Remote Sensing (JMARS)
- ENVI Image Processing and Analysis
- NASA NAIF SPICE Toolkit (Domestic training class, Columbia, MD. October 2014)
- Photogrammetric Processing of Planetary Stereo Imaging with SOCET SET®
- Unix/Linux, Mac OSX, MS Windows, MS Office, MS Project, and Internet tools
- Image Reduction and Analysis Facility (IRAF)
- Arena Simulation Software
- Palisade DecisionTools Suite

## LANGUAGES

- Spanish/English Bilingual
- Italian: Upper-intermediate (B2). Completed course at Istituto Italiano, Firenze, Italia
- German: Pre-Intermediate (A2). Inlingua Language School, Bern, Switzerland.

## EXTRACURRICULAR ACTIVITIES

- SCUBA and Free Diving
  - 74 logged SCUBA dives
  - PADI Rescue Diver (Emergency First Responder)
  - PADI Peak Performance Buoyancy Specialty Diver
  - PADI Dry suit Specialty Diver
  - PADI Freediver
- Volunteering
  - University of Arizona Health Network (Jun – Dec 2013): Volunteer in Pediatric Chronic Diseases Wing
  - Census aid after the 2008 Earthquake in Pisco, Peru.
- Sports:
  - Triathlon (University of Arizona Triathlon Club Alumnus)
  - Cycling (Category 4 USAC Road. University of Arizona Cycling Club Alumnus)
  - Climbing (Lead indoor up to 6a+/5.10c, outdoor up to 5c/5.9+), Ice Climbing (top rope up to 4l).
  - Snowboarding

Age: 33

Current Swiss Immigration Status: **Peruvian National. Ausweis B: Residence permit for non-EU nationals**

December 4<sup>th</sup>, 2018
